

TVAR West Campus

“As The Village at Rockville’s representative, ARCH ensured that the built environment was consistent with operational expectations.”

- **Jason Gottschalk**
Executive Director

Design is well underway for the West Campus Expansion project at The Village at Rockville, a National Lutheran Communities & Services community, which will include residential units and a wide variety of amenities including dining, wellness, fitness and entertainment spaces. ARCH assisted the Owner in determining the most appropriate building layout on a constrained site and continues to lead project efforts as the Owner’s Representative.

Plymouth Place

ARCH recently assisted with the completion of a new employee parking lot at Plymouth Place in LAGRANGE PARK, Illinois. The new lot is part of a phased master plan that ARCH assisted with in 2017. We are happy to continue working with our long-time colleagues at Plymouth Place.

Welcome, Ed!

The ARCH Team is pleased to welcome Senior Project Manager, Edward Bark, to the team. Ed guides design, construction and development efforts at ARCH. He is a globally certified Project Management Professional (PMP) and uses his extensive experience in program management and architectural design to successfully bring projects to their conclusion.
